SCE Post-Mortem | Topic Generator

Type	Skill	Process
Challenge	Collaboration	Junior Sem
Success	Communication	Summer/Top-of-Sem
Limitation	Leadership	Auditions
Opportunity	Research	Design Process
Pivot	Script Analysis	Rehearsals
Discovery	Preparation	Work Calls
Achievement	Creativity	Load-In/Tech
Failure	Feedback/Critique	Performances

A good post-mortem topic will include something from each column. For example:

- *A **challenging** moment of **collaboration** in your **design process**.*
- *A missed **opportunity** for **research** during **Junior Sem**.*
- *A **pivot** you made in your **leadership** style during the **rehearsal** process.*

These examples are all very specific. You can also bring a slightly broader idea related to 1-2 of the items from the chart above. For example:

- *A personal strength or weakness you discovered during your tech week.*
- *Some ways in which Junior Sem could have been more helpful to you.*
- *A particular moment in the play that you struggled with.*
- *A particular aspect of the process that you're really proud of.*
